

# BRYAN WEEKLY EAGLE

Published every Thursday by the Eagle Printing Co., Ed. R. Talmage, Editor; Arch B. O'Flaherty, General Manager. Member of Associated Press. Entered as second class matter, April 28, 1910, at the postoffice in Bryan, under act of March 3, 1879. Rates of subscription: One year, \$1.00, absolutely in advance; six months, 75 cents. Cards of thanks and resolutions of respect, 5 cents per line; other advertising rates on application. Active correspondents wanted. Daily Eagle every day except Sunday.

VOL. XXXV. BRYAN, TEXAS, THURSDAY, AUGUST 16, 1917. NUMBER 48

## Lens is Falling Into the Hands of the Allies

### CORPORATION IS FORMED TO TAKE GRAIN SUPPLY

**Julius Barnes, An Exporter, is Named as the Head of the Institution—Wheat Prices Are to be Fixed—Lousberry Back From Probing Prices in Mexico.**

(By Associated Press) Washington, Aug. 15.—With the approval of President Wilson, the food administration announces the formation of a corporation to take over the control of the country's grain supply. The following executive officers have been named: Herbert S. Hoover, chairman of the corporation; Julius Barnes of Duluth, president; G. W. McGarrath of New York, treasurer; F. J. Crowell of Kansas City, vice president; Edward Chambers of Chicago, transportation director; Curtis M. Lindly of San Francisco, counsel; J. M. Shorthill of York, Neb., secretary. Creation of a wheat control board under the food administration to supervise the distribution of wheat was completed today and the board's personnel will be announced tomorrow. Detailed plans for controlling wheat will be made known within a few days.

Julius Barnes of Duluth is an exporter and has been serving as an unofficial adviser to Herbert Hoover. As a member of the commission for relief in Belgium he made all the commission's wheat purchases in this country.

The committee to fix wheat prices, which will be headed by President Garfield of Williams college, will comprise nine members. Several members already have been selected and the others will be chosen within a few days.

George Lonsberry, chief assistant to Herbert C. Hoover, the United States food administrator, arrived in Texas from a tour of Mexico, where he has been conducting an investigation into food conditions in that country and ascertaining what would be absolutely necessary to permit to pass to Mexico when the embargo on foodstuffs to foreign countries is put into effect. He refused to talk while in Laredo and left at noon for Washington.

### AMERICAN MILLS TOOK 6,801,189

**Cotton Consumed in the Past Year, and the Past Month**

(By Associated Press) Washington, Aug. 15.—Cotton consumption during July was 541,496 running bales and 84,387 bales of lint, the census bureau announced. For the twelve months ending with July the consumption was 6,801,188 bales of lint and 687,309 of lint.

### Assist the Families of the Men at War

(By Associated Press) San Antonio, Texas, Aug. 15.—In an appeal to the various county councils, the Texas state council of defense urges organization of a movement to assist the families of those who go to war in the transaction of business and in any other way in which assistance would be needed. The council also suggests that it would be well for those who can to lay in their winter supply of wood at the present time. It is pointed out that by doing this now prices for wood probably would be kept from advancing so high during the winter to the inconvenience of the poorer classes.

**BRYAN BOYS HEARD FROM.** From Tuesday's Daily Eagle. J. D. Martin is in receipt of a letter from his brother, Ed, who was called into service Monday of this week. The men left Houston Monday night and arrived in Norfolk, Va., at 9 a. m. Friday morning. Ed stated that he was with a fine bunch of fellows and had enjoyed the trip very much. The Bryan boys upon arrival were landed from the train onto a boat which carried them to the training station. They have already been handed their suits. Ed Martin and Will Lyons are in company 38, Noah Cole in company 36 and Claude Lawson in company 35. Best regards were sent to all Bryan friends.

### EX-CZAR AND CZARINA HAVE BEEN REMOVED

**Taken to a Place of Greater Safety for Them**

(By Associated Press) Petrograd, Aug. 15.—Former Emperor Nicholas and family are being transferred to another point. He appeared much distressed but former Empress Alexandra seemed pleased at the prospect of a change. It was decided to get Nicholas out of the way before circumstances arose making it difficult.

### EXPENSE OF WAR IS MOUNTING HIGHER

**Secretary McAdoo tells Leaders More Money Will be Needed**

Washington, Aug. 15.—Congressional leaders were informed by Secretary McAdoo today that it would be necessary for them to authorize at this and the winter session of congress an additional \$9,000,000,000 for war expenditure, including further loans to the allies to June 30, 1918. Five billions in bonds already have been authorized and a \$2,000,000,000 war tax bill is pending now in the senate.

Within an hour after the secretary had conferred with Representative Kitchin, chairman of the house ways and means committee, plans were under way for raising the money. A meeting of the ways and means committee was called for August 25 and arrangements made for the house, now now taking three days' recess, to resume its regular meetings on August 27 and expedite financial legislation.

Issuance of between three and four billion dollars in bonds to meet new allied loans and authorization of an additional \$500,000,000 in taxes, to be added to the bill before the senate, probably will be proposed by the committee and agreed to by the house. The plan is to have the remainder of the \$9,000,000,000 authorized at the next session of congress, beginning in December.

### A. AND M. COLLEGE IS 'DISTINGUISHED'

(By Associated Press) Washington, Aug. 15.—Educational institutions rated as "distinguished colleges" for the present year because of the excellent military standing of the student battalions, include the Texas A. and M. college at College Station.

### Mrs. Landrum Takes Message to Hoover

(By Associated Press) Austin, Texas, Aug. 15.—Traveling overland in an automobile, Mrs. J. L. Landrum, head of the girls' economic division of the state department of agriculture, has left for Washington, D. C., where she will carry in person the message of food conservation by the Texas girls on the farms to Herbert C. Hoover, federal food controller. Mrs. Landrum is accompanied by her daughter, Miss Lucille Parks. While en route Mrs. Landrum will visit the commissioners of agriculture throughout the various states through which she traverses and get data from these officials as to what their states are doing to conserve the food products of the country. This information will be supplied to the controller and the national food conservation commission by Mrs. Landrum. She will be absent about two months.

### B. AND C. F. FREIGHT.

The following explains itself: Hearne, Texas, Aug. 9, 1917. Mr. H. O. Boatwright, Bran, Texas. Dear Sir—I am in receipt of your letter of the 8th inst., with reference to establishing freight service on the B. and C. T. railway. I beg to advise you that we expect to put the train on in the next few days, probably Tuesday or Wednesday of next week. There has been no business to move out of the valley to date. Received order for two cars yesterday, the first for this season, and order filled this afternoon. You can rest assured that the train will be on just as soon as there is anything for it to haul. Yours very truly, J. W. GREEN.

### STATE AND FEDERAL AID FOR BUILDING A ROAD THROUGH BRAZOS

**County Commissioners Petitioned Highway Board to Assist in Millican District—County and District Tax Rates Fixed.**

Brazos county commissioners this morning formally petitioned the Texas state highway commission for assistance in the building of a good road from the end of road district No. 1 to the county line at the Navasota river. This would in effect create road district No. 2 and be informally known as the Millican district, as the road runs north and south from Bryan through Millican to the county line. County Engineer Abney has made estimates of the cost of the improvement at \$53,215, approximately half of which would be borne, if the petition be granted, by the state and the federal government.

In the petition it is pointed out that this is the worst piece of road between Waco and Houston. It consists of fourteen miles of unimproved road. North of it in road district No. 1 are twenty miles of graveled roads and south of it in Grimes county are eighteen miles of graveled road. Along three miles of the proposed road are concrete culverts and bridges and it is well graded, but the remaining eleven miles of road is very poor.

The right of way is fifty feet and the proposed roadway would be fourteen feet, this to be surfaced with gravel except one mile, which would be a concrete highway.

To raise Brazos county's proportion for the payment of this work it is proposed to vote the necessary bonds in road district No. 2, and the maintenance would be from funds now on hand and to be secured through this bond issue and the general road tax of fifteen cents.

### Tax Rate Fixed.

The commissioners have fixed the tax rate at 45 cents on the \$100 in the county at large, divided into the different funds as follows: General fund ..... 23 cents Public building ..... 1.65 Public building improvement fund ..... 2 Roads and bridge ..... 11 Court house bonds ..... 43 Bridge bonds ..... 1.18 Jail warrants ..... 1.74 Bridge warrants ..... 4

### TOTAL

The county's bonded indebtedness totals \$76,000. Of the court house there remain unpaid \$6,000, bridge bonds \$12,000, jail warrants \$13,000, and bridge warrants, issued to overcome flood conditions, \$45,000. Each of these funds is being reduced at the rate of \$1,000 a year by the employment of the sinking funds.

The tax on road district No. 1 was fixed at 58 cents. The board has already retired \$10,000 of these bonds and will continue to retire them at the rate of \$10,000 a year until \$50,000 shall have been paid, then at the rate of \$12,000 a year until \$60,000 more shall have been paid, \$15,000 a year until \$90,000 shall have been paid, \$20,000 a year until \$100,000 shall have been paid, and \$25,000 a year until \$100,000 shall have been paid and the bonded debt wiped out.

The tax rates in levee district No. 1 were fixed as follows: Maintenance ..... 15 Issue June, 1913, \$8,000 ..... 20 Issue October 10, 1909, \$41,000 ..... 1.00

### TOTAL

The tax rate in several of the school districts were fixed as follows: District No. 2, 50 cents; No. 3, 15; No. 4, 25; No. 5, —; No. 6, 10; No. 7, 25; No. 8, 50; No. 9, 50; No. 10, 30 maintenance and 20 bond issue; No. 12, 25; No. 14, 50; No. 17, 26; No. 13, 25; No. 20, —; No. 23, 50; No. 25, 20 and 30; No. 30, 15.

The returns on the Edge school district were canvassed and showed that the vote for increasing the tax to the constitutional limit of 50 cents on the \$100 was 15, and against the tax 3. The election was held July 21.

A petition was presented from the Kurten school board asking the court to reduce the tax rate on its bonds from 20 cents and adding the necessary amount to the maintenance tax, now 30 cents. In this particular case it was discovered that it could not be done, although under other circumstances it could be. The thirty cents

### SHOTS EXCHANGED AND SEVERAL DEAD

**Trouble in Finland Between People and Troops**

(By Associated Press) Helsinki, Aug. 15.—In an exchange of shots between Russian troops and unknown persons here, several Finns were killed and others were wounded. The disturbance began when soldiers were fired on from the crowd.

### SUFFRAGE BANNERS ARE NOT POPULAR

**Torn Down in Washington as Fast as They Appear.**

(By Associated Press) Washington, Aug. 15.—The tearing of banners from suffrage pickets of the women's party at the white house gates and at party headquarters across the street continued today. Banners were torn down as fast as they appeared.

### TEUTONS CAPTURED 3,000 PRISONERS IN SERETH RIVER FIGHT

Berlin, Aug. 15.—The Austrian-German forces in the low lands of Sereth river, Rumanian front, yesterday stormed the bridgehead at Baltarete, on the west bank, it is officially announced. The Russians and Rumanians lost on the Sereth and in the mountains more than three thousand prisoners. Straoni was captured by the Teutons.

### MOBILIZATION CAMP NAMED A. L. MILLS

(By Associated Press) Washington, Aug. 15.—The national guard division to go to France, representing twenty-six states and the District of Columbia, will be mobilized at Mineola, L. I., at a camp named Albert L. Mills, after the late Brigadier General Mills.

### TWO MORE LIEUTENANTS.

From Tuesday's Daily Eagle. Attention has been called to the omission of a couple of names of Bryan boys who received commissions at the Leon Springs training camp. These were both made second lieutenants and are Robert S. Crawford, who registered at the camp from Batesville, and Leander E. Ponder, who registered from company H, Second Texas as infantry, national guard. The latter has seen a year's service on the border. The names were overlooked because of the registration not having been made from some point in Brazos county.

tax was voted by the people. The people voted \$2,000 bonds a few years ago and the county commissioners fixed the tax rate therefor at a maximum of twenty cents. Now they find that they have more bond money than they need and not enough to maintain their school. The state superintendent was telephoned, and he held that such a transfer could not be made unless the people had voted a tax of and not to exceed fifty cents, as has just been done at Edge. When all the expenditures of a district are included in a single tax rate, the different activities of the district can be taken care of, as the tax rates within the limit become flexible, whereas in the Kurten case they are rigid. The matter was referred back to the Kurten people with the suggestion that they ask for an election to vote the maximum tax of fifty cents, as they did at Edge, and then use as much of it as may be necessary to take their bonds and maintain the school.

County Superintendent W. L. Powers presented to the court the matter of books and blanks that go with the enforcement of the compulsory attendance law. These, according to the estimates of the quantities needed, would cost \$57.50. As the enforcement of the law is compulsory on the superintendent the court authorized him to make the purchase.

### HILL SEVENTY, THE GERMAN STRONGHOLD, HAS BEEN CAPTURED

**Canadian Forces Were the Ones to Whose Lot It Fell to Effect the Capture—Hill Seventy Dominates the City of Lens and the Loos Salient.**

(By Associated Press) The British Front in France and Belgium, August 15.—Hill seventy, the famous strong hold northwest of Lens, which dominates the city and the Loos salient, was captured this morning by Canadian forces. The British also pushed into the northwest of Lens in a semicircle around the eastern side of hill seventy. British attacks were made on a four thousand yard front which had extreme depth of fifteen hundred yards.

### PROPOSALS OF PEACE FROM POPE BENEDICT STARTLES THE WORLD

Washington, D. C., Aug. 14.—A reduction of armaments, the settlement of international disputes by arbitration, freedom of the seas and no retaliatory struggles for economic supremacy after the war are the foundation stones of Pope Benedict's peace proposals.

In the restoration of territory, the pope's proposal insists there should be return to Germany of all her colonies as well as a complete restoration of Belgium to her sovereignty. He declares injuries to all belligerents have been so great there should be no thought of reparation except for the return of territory.

### PEACE PROPOSAL ANNOUNCED.

(By Associated Press) Rome, Aug. 14.—Peace proposals made by Pope Benedict have been delivered to all the belligerent powers. He hopes for the restoration of Belgium, Serbia and Rumania and a peaceful solution of the problems of Alsace, Lorraine, Trent, Trieste and Poland.

### WASHINGTON HEARD OF IT.

(By Associated Press) Washington, Aug. 14.—The state department acknowledges that it has received unofficially knowledge of Pope Benedict's peace proposals before today's news dispatches were received. No official cognizance can be taken of it until the proposal is conveyed officially. Whatever consideration is given to it will be after consultation with the allies.

At the apostolic delegation all knowledge of the pope's proposal was disclaimed. It was said the papal delegates had not transmitted it to the United States government and did not expect to do so. Opinion was expressed that it would come through neutral governments. Within the entente diplomatic circle the opinion was freely and promptly expressed that the peace proposal was inspired by Germany and was an attempt to split the allies, causing a disturbance of their war aims.

### STRIKERS CLASH WITH SOLDIERS IN SPAIN

(By Associated Press) Paris, Aug. 15.—Six were killed and nine others wounded when strikers clashed yesterday with soldiers at Barcelona, according to a statement by the Spanish captain general received here.

### NOTICE TO FARMERS AND POULTRYMEN, BRAZOS COUNTY.

We will withdraw our offer of wheat at \$4.00 per 100 lbs. on Saturday, the 18th instant. This is sweet, sound wheat and is worth for flour making \$2.75 cents per bushel. None will be sold except for planting and poultry feeding. Parties outside of Brazos county can obtain wheat from us at \$5.00 per cwt. Sales made on basis of cash with order. H. T. LAWLER MFG. & TRD. CO., Bryan, Texas. Phone 88. d88w48

### RANGERS PROTECTING LIFE OF GOVERNOR SAYS GEN. HUTCHINGS

**Direct Testimony at the Hearing Was Concluded—Fuller Told of the Tail of Grafters He Followed in Court-house Transaction.**

(By Associated Press) Austin, Texas, Aug. 15.—After Adjutant General Hutchings testified that rangers had been kept at the governor's mansion because he feared for Ferguson's life, direct testimony was concluded and a recess taken until tomorrow in the charges against the governor.

Speaker Fuller and W. A. Hanger of Fort Worth, counsel for Governor Ferguson, "had it out" yesterday. Mr. Fuller was on the stand nearly all day, on cross examination by Hanger for the greater part of the time.

There were tense minutes when the bitterness between the two men brought a hush over the vast crowd in the hall of the house of representatives. There was sarcasm in the questions and sarcasm in the answers. A considerable portion of the testimony relates to the part Fuller played in connection with the letting of a contract by the county commissioners of San Jacinto county for the rebuilding of the court house. The court house burned the latter part of March, 1915, and the contract for rebuilding was under consideration that spring. The purpose of going into this matter is to impeach Fuller's testimony against the governor.

The contention of Mr. Hanger is that Mr. Fuller accepted a fee from a contractor to aid him in getting the contract to rebuild the court house while at the same time Fuller was the close friend and trusted adviser of the county judge.

The contention of Mr. Fuller is that every dealing he had with the contractor in question was known to the county judge all the time and that the only reason he had any dealings with a contractor was in order to detect any attempt at crookedness on the part of those seeking the contract. He stoutly maintained this position all the way through and said that he made not a dollar out of the transactions in which he was involved but that he went into them because the county judge had called him as a friend and adviser to help protect the county against "crooked contractors."

Mr. Hanger read into the record a great many letters intended to show that Fuller and the contractor from whom he accepted the fee were working in accord and in friendliness. Mr. Fuller showed on the other hand that the letters were for the most part written as part of the game he was playing to protect the county.

At the end of the day's testimony it was evident that the end of the hearing is not even near. When Mr. Fuller resumed the stand Tuesday morning he requested and received permission to make a statement to the effect that the rendition of his property as shown by the tax rolls was not accurate because he has interests in other property rendered under the names of other persons and he has some property on the unrendered roll.

# EDITORIAL DEPARTMENT OF THE BRYAN WEEKLY EAGLE

## The Slacker's Love Song

By James J. Montague in Atlanta Georgian.

Oh! Mary Ann or Sarah Jones, or Myrtle or Marie,  
Or Bridget, Becky or Elaine, please won't you marry me?  
It's not that you are fair, my dears, it's not your eyes of blue,  
It's not your glossy hair, my dears, of many a varied hue,  
It's not your golden, glowing health, that sets my heart aflame,  
And though you're shy on worldly wealth, I want you just the same.

Oh! Nora, Reba, Tilly, May, oh! Jessie, Madge or Sue,  
Oh! Fanny, Josie, Flora, Fay, I certainly want you!  
Not all at once, you understand, for I can give my name  
And honest heart and sinewy hand to but a single dame.  
It isn't that I love you so, but in my present fix  
The old exemption bill don't go, and single men are nix.

Oh! maids or widows, young or old, or lean or waxing portly,  
Pray hear my plea and don't be cold, for I shall need you shortly,  
I'll not pretend my pulses beat like mad when you are near  
Or that I can not sleep or eat because of you, my dear;  
I am no Broadway chicken-fan; skirts have no power to charm me,  
But if I stay a single man, they'll nail me for the army!

Oh! Ella, Eunice, Eulalie, I beg you not to falter,  
For here comes Uncle Sam, and we must beat him to the altar,  
Come Mollie, Mabel, Mazie, Minn, come Cora, Claudia, Carrie,  
And help me hide myself within the slacker's sanctuary.  
I will not promise to be true, my wooing is a sham,  
But I would rather marry you than fight for Uncle Sam!

## Faith

Credit is a wonderful invention. In his testimony before the Texas legislature yesterday, Assistant Cashier Blum of the Temple State bank stated that the notes for \$37,500 each, taken over by the Houston National Exchange bank; did not involve the moving of a single dollar. It was the simple book transfer of that much of the account from one bank to the other, the Houston bank having faith in the Temple bank. Credit is nothing but faith. The Houston bank had faith that the Temple bank would stand behind these notes and the Temple bank had faith that the governor and his friends would not let the paper go by default. And thus it is from the little borrower to him who gets credit for millions. If the banker has faith in the individual he can get credit without a dollar's worth of security other than that required by law. Bankers loan as much or more on character as they do on bankable security, so-called, which may be stock in an institution that will go broke and which in itself is but another paper evidence of faith that those who are running the company are doing something worth while and are maintaining the plant on a profitable basis. Bonds are of little more weight as collateral because the bondholders have the right to seize a plant or business if the debt is not paid at the stipulated time, but no banker cares to hold collateral of an institution that is liable to get into trouble. However, it is a part of the business of a banker to assist people in trouble, and he does so only when he has faith in the institution or the men who are operating it. Credit is extended upon that faith more than upon the collateral. It is, after all, the faith that one man has in another that forms the basis for credit. The United States government is now borrowing billions of dollars simply on its promise to pay. The citizens of the United States have faith in their government because it has always paid its bills and because each citizen is a part of the government and responsible to himself for a part of the debt. To that extent he must have faith in himself as a citizen and an individual in order to assure himself that government bonds are worth the money he pays for them. At the same time he has faith in all his fellow citizens that they, too, will be loyal and sustain the government, his government and their government, in whatever undertakings there may be. When we loan money to the allies it is because we have faith in them and believe that they will repay in some form or other in the course of time.

Without faith in our fellowman we would get nowhere. Men go about this town declaring that "it can't be done," and every time they utter the sentiment they are declaring their lack of faith in their fellow-citizens of this community. They believe that those upon whom dependence will be put in the hour of smallest trial will not come up to the scratch. They believe, through trying experience, perhaps, that the men whose brains they would like to see used for the general good of the community and whose money they think should be similarly employed, will fail them when most needed. For some reason they in whom they lack faith have not been as progressive and locally patriotic as others think they should have been, and doubtless their belief is well founded by events of history, because Bryan has not done the things it should until the more recent years, hence somebody fell down in times past and may fall down again. "By their fruits ye shall know them." Christ said that, and so saying uttered a fundamental truth. If the fruits of men's actions are of such a character as to cause loss of faith in them, then their fellows do not rely upon them, cannot rely upon them and do not call upon them, probably to assist in any progressive work.

## THREE-FOURTHS BALE TO ACRE EXPECTED

From Friday's Daily Eagle  
Not all are agreed that Brazos county is going to produce such a terribly short crop of cotton as has been supposed. One farmer was heard to remark that he has 150 acres in cotton and expects to get around 115 bales from it. Several stalks of cotton have been brought to The Eagle office that, while small, were loaded down with bolls, a fact attributable to a large extent to the absence of the boll weevil and other insect pests this year. Not all fields produce this sort of cotton, however, for it is a fact that there is some mighty fine cotton and some very poor cotton, and all grades of cotton in between, making it one of the most difficult crops to estimate. Prof. E. J. Kyle, dean of the horticultural department of A. and M. college, brought to The Eagle office this morning one of these small stalks heavily fruited and says it is a fair sample of the crop on the five hundred acres of the Kyle-Smith plantation. This particular stalk was somewhat larger than former samples brought in, and it has on it no less than 47 bolls. He says they are figuring on gathering no less than three quarters of a bale to the acre.

Cotton is coming in quite rapidly now, the different warehouses having received many bales. The price is very attractive, being close to 27 cents a pound, hence bringing to the producers some large sums of money. W. E. Saunders sold one bale this week which, with the seed, brought him almost \$200, or, to be exact, \$197.10.

There are some reports of grass worms damaging the peanut vines, but this does not seem to be general. Great reliance has been put on peanuts as a substitute for corn. Prof. Kyle, however, says the corn yield on the Smith-Kyle plantation this year will average about 25 bushels to the acre, and that is superior to the general average of the county by a very considerable.

## PICKETS DISPLAYED INSULTING BANNER

Washington, Aug. 11.—A banner displayed at one of the white house gates by a woman's suffrage picket addressed to "Kaiser Wilson" was torn down Friday after an indignant crowd had jeered and hissed the suffragists for several minutes.

The banner was carried by Miss Luck Burns, who figured in several of the previous demonstrations in front of the white house. It was inscribed:

"Kaiser Wilson—Have you forgotten your sympathy with the poor Germans because they are not self-governed? Twenty million American women are not self-governed. Take the beam out of your own eye."

It immediately drew a crowd which gave free voice to its indignation. There was no concerted attack on Miss Burns, but James P. Delaney, a navy department clerk, tore the banner from the pole, split out through the crowd and up Pennsylvania avenue before anyone could touch him. He was not pursued.

## AMERICAN ARMY 750,000.

Washington, Aug. 9.—Three-quarters of a million men are wearing Uncle Sam's khaki. The regular army needs but 2100 to fill its ranks. The national guard, approximately 447,000 total strength, is all mustered in.

Recruiting is to be continued with vigor, however, for there will be further vacancies in the national guard before the federal surgeons get through with the examination of these men.

## WILL NEVER BE WITHOUT IT.

No other cough medicine "reaches the spot," heals, soothes and relieves irritating, hacking coughs like Foley's Honey and Tar. Mrs. John Bournoville, Brussels, Wis., writes: "I've been using Foley's Honey and Tar Compound for years and recommend it for children. I will never be without it in the house." M. H. James.

## WHAT EAGLE FILES TELL OF OTHER DAYS

(Twenty Years Ago.)

Walter Knox, Mate Jenkins and Joe Hearne, Jr., returned from Chicago Friday night. Joe says the policemen in Chicago are ten feet high.

The school board had a meeting Monday and decided that the school shall open Monday, September 8. The salaries of Miss Fletcher, Miss Dearling and Miss Board were raised \$5 each per month. Paul Ruchi was elected janitor at \$20 per month.

T. P. Boyett, T. C. Nunn, Houston Cole and others run a wild cat all Thursday night in Carters creek bottom but when they caught the animal it turned out to be a coon.

There were scads of fine watermelons brought to town yesterday. John Holden and Babe Stewart were in from Tabor with loads and the latter had one 60 pound melon.

Mr. T. B. Martin of the Bethel neighborhood reversed the order of things which has prevailed for several months by bringing in a load of corn which he sold for 40 cents per bushel. When the present crop is in the cribs the farmers will have corn to burn.

Mr. and Mrs. D. B. Knox entertained a merry party of little folks last night in compliment to Miss Morine McClintock of Waco. Dancing and dainty refreshments were enjoyed.

There were large crowds, including many protestants, at the St. Joseph's church Sunday night and last night to hear Father Branan's discourses. He will preach again tonight. Father Branan's experience as a lawyer is evident in his manner of speech and gesture is something new in the pulpit. He is very direct and forcible and never minces matters. Those who do not agree with the doctrines he expounds find him interesting and instructive, and those of his own faith find in him a ready champion with all the energy of a Sam Jones.

Having often referred to the matter before, The Eagle would now like to add to the agitation going on relative to naming and labeling the streets, which should be named one way and numbered the other, and plainly labeled with tin signs at the corners. This would be comparatively inexpensive and convenient in the greatest measure. We hope the city council will take action in the matter at once.

Judge Doremus has bought the handsome horse brought here from the north by the late Mr. W. S. Coe.

M. H. James, H. G. Rhodes, Prof. Hickman, R. G. Tabor, Dr. Niveth, Curtis Oliver, John M. Lawrence, Ed S. Derden, C. T. Wilson, Joe B. Reed, A. M. Waldrop, Dr. Harrison, D. C. DeMaret, Dr. Oliver, Tyler Haswell and A. G. Board and others were among the K. of P. excursionists to Navasota yesterday and last night.

Mrs. E. J. Fountain was at home to lady friends yesterday evening from 5 to 7 o'clock in compliment to her guests, Mrs. W. E. Astin of Hearne, and Mrs. H. L. Scales of Corsicana. The reception rooms and dining room were decorated with pink sweet peas. Dainty refreshments were served.

Mr. and Mrs. T. R. Batte entertained a few couples Tuesday evening in compliment to Miss Maud Howell of Dallas. Those present were Misses Howell, Buchanan, Friley, Waldrop and Miss Jennie Howell; Dr. J. L. Fountain, Webb Howell, Prof. Moore, Dr. Oliver. The evening was pleasantly passed with music and conversation. Dainty refreshments were served.

Lon Johnson was struck by a passenger train Saturday night, but escaped without further injury than a slightly bruised hip. Lon says if he had had time to brace himself he thinks he would have ditched the engine.

Mr. and Mrs. E. J. Fountain, and Misses Sue McClelland, Leaneore Waldrop, Gussie Friley left for a visit to Nashville yesterday, after which they will spend the summer at Mont Eagle, Tenn.

James H. Webb and family are visiting relatives in San Antonio.

Ed Emmel will graduate in pharmacy at Chicago tomorrow.

Among the visitors Thursday was the following party of ladies and gentlemen from the Agricultural and Mechanical college: Mrs. L. R. Ross, Colonel and Mrs. William Henry Harrison, Major W. R. Cavitt, Mr. and Mrs. B. Shisa, Professor and Mrs. H. H. Harrington, Misses Bessie Ross, Katie McKenzie, M. Stella Shepard, Ethel Cavitt, Rita Shisa, Dr. Frank Ross, Professor W. B. Philpot, Nevil Ross.

They witnessed the military celebration at the park and early in the evening were entertained at an informal reception tendered them by Mrs. O. T. Holt in her parlors at the Capitol hotel. Later they attended the military ball at Turner hall.

Miss Bessie Ross is one of this season's debutantes and was very popular at the dance. She is beautiful and attractive and those who meet her admire her.—Houston Post.

## AMERICAN TROOPS MAY BE SENT TO ITALY AND RUSSIA

Washington, Aug. 10.—American troops may be sent to Russia.

This was the outstanding feature of the return to Washington of Elihu Root and his special mission.

Almost at the hour when the mission was making its report to President Wilson, Senator J. Hamilton Lewis, democratic whip and administration spokesman, was telling the senate that our forces will go both to Russia and Italy.

Secretary Baker last night refused to either confirm or deny this.

It is generally believed to be the most serious thought now in the minds of those directing our military policy. The statement of Andre Tardieu, French high commissioner, made to Secretary Baker on Sunday, that France is still fresh and vigorous, and the knowledge that England at this time has more men than she knows what to do with, assumed large importance in the speculations of Washington on this possible change of campaign plan last night.

There are known to be tremendous difficulties in the way of transporting an expeditionary force to the eastern fighting front. There are also other difficulties of a political and diplomatic nature which seemed last night to be almost insuperable. Yet high officials began to believe here today that by strengthening the wavering Russian lines in Galicia and Rumania the United States can do more for the allied cause than in almost any other way.

## U Boat Commander Outwitted by a Negro

Liverpool, Aug. 11.—William Snell, a negro of Jacksonville, Fla., the only American survivor of the British steamship Belgian Prince, which was sunk July 31 by a German submarine, with the loss of 38 lives, Thursday gave details of his experience to the Associated Press. He said:

"A torpedo hit the engine room. A submarine then quickly came to the surface about 200 yards to starboard and fired at our wireless apparatus. We left the Belgian Prince in three boats and had got 50 yards from the ship when the submarine came alongside and asked for our captain, who was taken aboard and inside the U-boat.

"We were then ordered to the deck of the submarine, where we were told by the commander to remove our life belts and to lie on the deck. Then the commander went into the boats, threw our oars into the sea and had his men remove the provisions. After that the plugs were taken out of holes in the boats which were then cast adrift.

"The submarine went to the northeast for 12 miles, the commander taking the life belts to the top of the conning tower and throwing them overboard. I hid mine under a raincoat and as the submarine began to submerge tied it around my neck and jumped into the sea.

"The rest of the crew stayed on deck until they were swept off by the sea as the boat dived."

Surgeons agree that in cases of cuts, burns, bruises and wounds, the first treatment is most important. When an efficient antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BORZONE is the ideal antiseptic and healing agent. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by E. J. Jenkins.

## BILLS SIGNED.

Washington, Aug. 10.—The administration food control and food survey bills were signed by President Wilson and became law.

battery, the Bryan baseball team played College yesterday on College campus, and Bryan won by a score of 10 to 5. A thousand rooters from Bryan got in their lung exercises and interest was never allowed to lag. Both teams played good ball.

The telephone line from Willow Hole to Iola and Pankey, Grimes county, has already been completed, placing Bryan in direct communication with two more points in her trade territory.

The Eagle has been informed by Mr. B. H. Knowles and others that eggs were thrown through the window at Parson Graham while the latter was preaching at Concord church in this county last Sunday night, but the preacher was not hit. The Eagle has not learned any further particulars.

Mr. and Mrs. W. S. Wilson entertained several couples of young people last evening in compliment to Miss Margie Gay of Huntsville, a sister of Mrs. Wilson. Miss Gay has visited Bryan several times and has made many friends here. She is a musician of ability and the life of a social company. Refreshments were served at a seasonable hour, and the entire evening was most delightfully spent.

Mr. and Mrs. J. A. McQueen gave another of their very pleasant dinner parties yesterday evening in compliment to Miss Culbrath of Calvert, and Misses Bessie Ross and Nellie Smith. The gentlemen present were Dr. W. H. and Curtis Oliver, A. M. Waldrop, George W. Smith, Frank Clarke, F. W. McConico, T. B. McQueen.

## FIRST QUOTA OF DRAFT ARMY WILL BE CALLED SEPT. 1

Washington, Aug. 9.—The first quota of the draft army will be called September 1. It was announced at the war department today. The government will call one-third of each state quota to be entrained for a mobilization camp between September 1 and 5.

Simultaneously with this statement a telegram was sent to the state governors by Provost Marshal General Crowder giving new rulings on the dependency clause, which will mean that many married men will have to go to the trenches. New definitions of what constitutes dependency

leave many married men, hitherto exempt, with no further recourse but to serve. Where other means of support exist married men must go, the ruling holds.

States are expected to have at least one-third of their quotas not exempted or discharged by September 1. Otherwise they will not be furnishing men as fast as the war department is ready for them. The local boards are being urged to expedite certification of their lists.

General Crowder, ruling on marriage exemptions, says:

The general basis for ruling upon such questions should be the spirit and purpose of the act in providing for such discharge, wherever the terms of the act and of the regulations are not in themselves conclusive. The act authorizes the president to discharge wherever the parties drafted in a status respective to per-

sons dependent upon them for support which renders their exclusion for discharge advisable.

"Such dependency ordinarily renders discharge advisable, because since the drafted person loses civil income and thus loses his means of support, the wife is left without support and this lack of support is the effect which the act aims to avoid.

"But wherever such effect does not in fact follow, and the wife is not left without reasonable support, but will receive such support from other sources, there is no real dependency rendering discharge advisable."

Constipation is the starting point for many serious diseases. To be healthy, keep the bowels active and regular. HERBINE will remove all accumulations in the bowels and put the system in prime condition. Price 50c. Sold by E. J. Jenkins.

# SALADINER EXHIBITS AIR TORPEDO HAVING GREAT POSSIBILITIES

J. H. Saladinier has just completed and put on display in a Main street window a small model of an air torpedo which he has invented. This is not a working model which would be at least twenty feet long, but is simply to show the mechanism of a machine which he believes would be one of the most destructive weapons of offense in modern warfare.

Mr. Saladinier takes the seemingly natural position that the air offers less resistance against the propulsion of a machine of this sort than does the water torpedo, and yet it is to be employed for a similar purpose, the destruction of property and lives at a distance from the operator. The water torpedo was not always the perfected machine it is today, the number of hits to the number of shots being small compared with the record of the present war. In working models Mr. Saladinier expects to bring the air torpedo to the same degree of perfection, through trials and experience.

In designing the air torpedo Mr. Saladinier has employed the fundamental principles of both the Zeppelin and the aeroplane. While the propulsion is by a gasoline engine driving a propeller, the machine is lifted by gas contained in a rubber bag, cigar shaped, as in the Zeppelins. By novel construction it has two powers in front and two in the rear. The air torpedo can be adjusted to reach any desired height within the maximum limits provided. The size of the machine may be twenty or thirty feet in length.

Four traveling speeds are provided, these adjustable before the machine leaves the ground. The peculiar construction of the wings, this feature borrowed from the aeroplane, not only serves to direct the machine, but also to guide it in rising. Mr. Saladinier claims some wonderful effects from the design of these wings. Should it be desired, for example, to send the torpedo against the enemy when the wind is blowing from the quarter as related to the operator, the machine would be adjusted and directed in such a manner that it would complete a quarter and land or drop bombs on the enemy position at the point desired. On the model on exhibition this, of course, is not indicated to the mathematical exactness it would be on a full sized machine.

Chains on each side of the machine constitute the mechanism by which bombs are dropped every fifty or one hundred yards. These chains are scaled so that the dropping of bombs are dropped according to the previous will of the operator, who sets the machine to perform their functions before the machine leaves the ground.

In operation Mr. Saladinier presents some claims that appear obvious to the layman. An air torpedo, adjustable to move such distances as the operator may desire, within the limits of the capacity of the machine, of course, does away with the necessity of sending up aeroplanes, thus endangering the lives of men. Furthermore, as the machines can be directed to a certain fixed point as may be indicated by observers, the destruction can be made consecutive, as by the dropping of bombs at intervals or en masse. From ten to thirty bombs are to be carried on the machines. Should the enemy succeed in hitting a machine by rifle or gun fire, they would be lending aid to the operator, for when the torpedo dropped it would let loose a tank of poison gas held underneath the gas bag.

Another operative feature to which Mr. Saladinier calls attention is the possibility of attaching a flock of torpedoes to an aeroplane, much as one would lead a bank of horses. These would be turned loose at the will of the aviator over such parts of an enemy country as he desired, and the torpedoes would do the work. Being so small and dropping bombs with regularity, it is expected that consternation would fill the enemy, as they would not know from whence came the bombs, nor how long the bombardment would continue.

He anticipates that in actual use in warfare a good many problems might arise, just as have come in the perfection of the water torpedo, which has been undergoing improvement for a good many years, but he does believe he has hit upon a valuable idea and has met the main difficulties in a manner that will appeal to the United States government.

The cost to the government of the air torpedo would be considerably less than that of a water torpedo, and its destructive abilities would be several times greater, owing to the fact that, whereas the water torpedo contains but one shot, the air torpedo will hold as many as thirty bombs and have in addition the poison gas tank.

# BILLION BUSHELS OF WHEAT NEXT YEAR

Washington, D. C., Aug. 19.—The production of over one billion bushels of wheat and other eighty-three million bushels of rye, through planting of 47,337,000 acres to winter wheat, and of 5,131,000 acres to rye this fall, is the immediate war agricultural program for the nation announced today by David F. Houston, secretary of agriculture. This record winter wheat acreage, an increase of 13 per cent over last year, would yield 672,000,000 bushels if the average yield for the past ten years is equalled, or under a repetition of the favorable conditions of 1914 would give 880,000,000 bushels. In either case with a spring wheat crop next year equal to that of 1915, the nation will have more than one billion bushels of wheat for domestic use and export.

This vastly increased production of wheat, needed in any case, will be absolutely essential to prevent a serious shortage of breadstuffs next summer should the growing corn, now behind the season, be much damaged by early frosts.

The program approved by the secretary of agriculture represents the best thought of the United States department of agriculture and of state agricultural officials and state councils of defense.

The study of this question has involved many factors and the specialists have been aware from the first that the demands for wheat may exceed the supply next year. Effort therefore has been made to recommend in each state about as large an increase in wheat and rye as can be sown without upsetting proper farm practice which must be maintained in the interest of wheat and rye crops this and succeeding years, as well as in the interest of other necessary spring-planted crops which are not discussed in detail at this time as they are not food crops in which a marked shortage exists.

The estimates, the department states, are made with the knowledge that there is some shortage of the fertilizer supply but with the understanding that there will be no general shortage in the supply of seed or of farm machinery which is necessary in the production of the wheat crop. It is understood also that ample transportation facilities will be provided and a fair price of wheat will be established. These factors have been assumed as fixed and satisfactory. If any one or more fail to be adjusted in good time, no person can tell how serious will be the effect on the total crop.

The planting and cultivation of these increased acreages of fall-sown grains calls for unusual effort on the part of the farmers. Plans to place at the disposal of farmers all assistance possible are being perfected by the United States department of agriculture, the state colleges of agriculture and other state and local agencies which co-operate in farming matters. The assistance of successful growers of wheat and rye in a campaign to turn out bumper crops in 1915 is assured.

The state officials will do their utmost to get the acreages expected of their states into the ground. The program as originally worked out by the federal department of agriculture called for somewhat more than 44,000,000 acres to be sown this fall. When this proposal was presented to the officials of the several states, a further increase was considered possible and desirable by them. As a consequence the recommendation for the sowing of 47,337,000 acres is made.

When you yawn a good deal in the daytime, feel dull, aches and want to stretch frequently, it is an unmistakable symptom of malaria, and unless you do something at once you are booked for a spell of chills. HERBINE is a mild medicine that will prevent or cure the disease. It drives out the impurities on which the malarial germ thrives, strengthens the liver and cleanses the bowels. Price 50c. Sold by E. J. Jenkins.

**DROWNS IN SHIP CHANNEL.**  
Houston, Texas, Aug. 13.—John H. Leaker, vice president of the Houston Wood, Wire and Metal Lathers' union, was drowned in the ship channel at Clef Sunday morning about 10 o'clock.

# LEMON JUICE IS FRECKLE REMOVER

Make This Beauty Lotion Cheaply for Your Face, Neck, Arms and Hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quart pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of alcohol white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier. Just try it! Get three ounces of orchard white at any grocery store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands. Adv.

# NAVASOT PETROLEUM COMPANY PERMITTED TO SELL ITS STOCK

From Monday's Daily Eagle  
The secretary of state Saturday granted a permit to sell stock to the Navasota Petroleum company of Bryan, chartered to prospect for gas and oil in Brazos and Grimes counties. The authorized capital stock is \$35,757, and the par value of shares \$57.

B. Shisa is president; W. G. Tallaferrero, vice president; M. H. James, treasurer; J. W. Batts, secretary; Robert Armstrong, director and legal adviser; John G. Vick and O. E. Saunders, directors and supervisors of well drilling, and M. Harding of Dallas, sales manager. The seven founders of the company have secured leases on 3,000 acres of land lying from 10 to 20 miles of Bryan in what they believe is one of the best undeveloped fields of the southwest. It lies in the Navasota bottoms on a direct line with Corsicana and the Gulf coast oil fields. Geological reports justify them in the faith they have in the land, so that they have resolved to turn over leases to the company as may be selected and they retain only one share each, will receive no salaries until there is paying production, and not more than one share of stock will be sold to any one person, unless subsequent events justify a different practice, when all shareholders will be notified. Not over fifteen per cent of each share is to be used in the expense of organization, such as railroad fare, advertising, printing, postage and the like, and no salaries or commissions are to come from this fifteen per cent. All services and time of the founders are to be given free. Monthly statements will be issued to show the progress of the work and the financial condition.

In the well drilling operations a competent driller who will be placed under bond will be secured. It is proposed to sink three deep test wells, the minimum depth to be 3,000 feet. Tests of the wells will be made at any time thought advisable by those of the directors in charge.

All these facts and pledges are set out in a prospectus just issued. It is proposed to let in any one on the ground floor who may desire to get in, the big profits, if any, to come from the development of the field after a thorough test shall have been made.

When you feel lazy, out of sorts and yawn a good deal in the daytime, you can charge it to a torpid liver which has allowed the system to get full of impurities. HERBINE cures all disorders produced by an inactive liver. It strengthens that organ, cleanses the bowels and puts the system in good healthy condition. Price 50c. Sold by M. H. James.

# Bryan Boy in Navy Pictured in News

From Monday's Daily Eagle  
In connection with his picture showing him in the act of washing his clothes, the Galveston News prints this story of a Bryan boy:

The picture shown here represents G. W. Robinson, a Galvesonian, at his regular washday task aboard the United States patrol Tingey, on which he is. One of the things consistently required of the "jackie" is that he keep his clothes spotlessly clean. Mr. Robinson wished to remind his Galveston friends of this fact and sent them this picture.

Mr. Robinson was formerly part owner of the Electric garage here. He is a member of the local Rotary club. He received his bachelor of electrical engineering degree from the agricultural and mechanical college with the class of 1911. After receiving his degree he went to Mexico and spent about four years as engineer in a mine. From there he came to Galveston, where he remained until last April 7, when he enlisted with the naval militia. He was first sent to Charleston, S. C. Later he was transferred to the patrol boat Tingey, which patrols the coast of Virginia, with headquarters at Berkeley, Va. Mr. Robinson is an electrician of the first class on the boat.

Mr. Robinson's parents are Mr. and Mrs. J. A. D. Robinson, who live at Bryan. His wife recently went to Berkeley to make her home there with him.

# ARE YOU UNLUCKY?

In August the air is full of pollen and dust that cause trouble for some, yet others are never bothered. No remedy does more to relieve hay fever and asthma than Foley's Hay Fever and Tar Compound for coughs, colds and croup. It clears and soothes the afflicted nose, throat and bronchial tubes. M. H. James.

# CLOUD-PARKER.

From Monday's Daily Eagle  
Mr. John T. Cloud and Miss May Parker of Steep Hollow were united in marriage at the home of Rev. J. J. Tatum Saturday afternoon at 4:30. The young couple are well known and have a number of friends in Steep Hollow and the surrounding community. They are to make their home at the old home of the groom at Steep Hollow.

# RUB-MY-TISM

Will cure Rheumatism, Neuralgia, Headaches, Cramps, Colic, Sprains, Bruises, Cuts, Burns, Old Sores, Tetters, Ring-Worm, Eczema, etc. Antiseptic Anodyne, used internally or externally. 25c

# OTHER COUNTIES ARE INTERESTED IN EAST AND WEST HIGHWAY

From Saturday's Daily Eagle  
Replies are being received to letters sent out to men in the county seats and principal towns through which the proposed east and west highway would run, and which the Bryan Commercial club is promoting. The matter has been before the local club for a month or more and action has been delayed by the absence or lack of time of committee men, but it now appears that the people of these other counties are just as deeply interested as Bryan. When other replies shall have been received it is proposed to hold a highway conference here, organize an association to take up the matter and push it before the state highway commission.

The following replies have been received:

**Milam County.**  
Rockdale, Texas, Aug. 4.—Highway department, Commercial club, Bryan, Texas. Gentlemen: I am informed that a movement is on foot for a highway from Bryan via Caldwell, Rockdale to Austin. It is needless to say Rockdale and vicinity is very much interested in such a highway, and any assistance or co-operation we can render will be gladly furnished by us. Any movement you may put on foot we ask you to call on us. If it is your desire to go before the highway commission a delegation from here will be glad to join you. Awaiting any suggestions that you may offer, I am, Respectfully,  
H. C. MEYER, Mayor.

**Williamson County.**  
Taylor, Texas, Aug. 10.—Mr. S. E. Eberstadt, Bryan, Texas. Dear Sir: Re state highway east and west through Bryan-Taylor.

I reply to your favor of the 8th inst. I will say that the citizens of Taylor will assist in any way possible to secure such a highway as you mention. It would be a big asset to this city as it would give us what we now have not—an improved road to Houston. The Meridian highway and the King trails are both officially designated through Taylor. What we need and have needed for a long time is a connection with these highways east into your section and on to Houston. Let us know what we can do to assist and you will find us to the front. Notify us the date that committees will go to Austin and Taylor will have their representation on hand to do what it can. Assuring you that your project will meet with the hearty approval of the entire citizenship of Taylor and of every aid that we can give, I am,  
Very truly yours,  
FRED I. FISHER,  
Secretary Retail Merchants Association.

**Burleson County.**  
Caldwell, Texas, Aug. 9, 1915.—Mr. S. E. Eberstadt, Bryan, Texas. Dear Sir: Yours of the 8th inst. to Mr. C. B. Oliver was handed me for attention by him. The judge has been out of the county for two weeks is why you have not heard from him. The commissioners court meets here soon and the judge has agreed to a hearing with reference to the proposed highway. Will say, as secretary of the Commercial association, that we are very anxious to do all that we can to get a good road or roads through our county both ways, and would have had a bond election at this time had conditions been normal. We are for the movement proposed in your letter and we want to co-operate in every way that will benefit the public.

Yours very truly,  
C. A. BAIN, Secretary.

County judges and others whose names could be secured were also written at Madison county; Madison county; Giddings Lee county; Madison county; Walker county.

# HE FELT LIKE NINETY

Nothing makes a person feel old quicker than disordered kidneys. They cause aches and pains all over the body. "Oh, I suffered with pain in my back. I am 43 years old, but I felt like a man 90 years old. Since I took Foley Kidney Pills I feel like I did when I was 21." M. H. James.

# LIFT YOUR CORNS OFF WITH FINGERS

Tells how to loosen a tender corn or callus so it lifts off without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you.—Adv.

To preserve or restore the rosy glow of youth will be easy if you use our "Beautifiers." Our lotions will feed the skin and keep it soft and healthy. To keep your hair and to make it abundant use our "Hair Tonics." We have preparations for cleansing the teeth and making the "Breath" as sweet as the odor of a rose.

Don't you need a new "Manicure Set" and other toilet articles? When you get anything from us you can "Rely" on what you buy.

**M. H. JAMES**

# Another Big, Sensational Sale

AT  
**M. BONNEVILLE**  
On the Corner West of Main Street

# Racket Store

WE are making a big sacrifice on all SUMMER GOODS. We must get rid of them, to make ROOM for our FALL STOCK, which is arriving daily. SHREWD BUYERS are beginning to realize that this is the only STORE to buy goods at RIGHT PRICES. Cotton is still advancing and goods are BOUND TO GO HIGHER. Our prices on OUR GOODS are still lower than RAW COTTON is selling today and we still continue to sell all our SUMMER GOODS, etc., at these low PRICES till all are sold.

For sale by Steve Montalbano, Pitts Bridge, N. A. Stewart and M. H. James, Bryan; A. J. Edwards, Cawthorn; Goree Neelley, Wellborn; Felton O'Neil, Bryan.

## BRAZOS COURT HOUSE TO BE THOROUGHLY MODERNIZED SHORTLY

From Tuesday's Daily Eagle  
For the first time in thirty-five years, or since it was built, money is to be voluntarily spent in repairing, altering and overhauling the Brazos county court house. The commissioners court, now in session, has accepted the plans of Sanguinet, Staats and Gootlieb of Houston, with the reservation that changes are to be made in some particulars. The plans call for the erection of a smokestack on the outside of the building, this to be connected with the steam heating plant. It is now proposed to build that smokestack on the inside and save a considerable sum of money.

The plans call for a toilet room for white and negro men in the basement as well as the steam boiler room.

The corridors of the ground floor are to be tiled and a marble base put in. The county court room is to be divided and the justice of the peace given an office. No other alterations are proposed on this floor.

On the second floor the room now occupied by the county surveyor will be converted into a rest room for ladies, with toilet and lavatory and other conveniences.

The whole building is to be painted, inside and out, and as this has not been done for thirty-five years, it means that the iron and wood work will have to be scraped down, an expensive operation in itself, the cost of which could have been reduced had the repairs been kept up through the thirty-five years.

The architects estimate that the cost of the work will be \$27,000, which may be reduced very considerably when bids are received. The steam heating plant will cost \$7,000 and this is in reality the only improvement, the remainder of the work being repairs and alterations to meet new conditions. In the list of repairs is a big plastering job and the painting of the walls to make them sanitary and easily cleaned and impervious to water and dampness. Much of the plastering has fallen off. The electric wiring system is to be made commensurate with the work that has to be performed in the building.

To meet the cost of this work, it is proposed to vote a tax of two cents and reduce the general fund an equal amount, so that there will be no increase in the tax rate.

Residents of road district No. 1, who pay on a valuation of \$5,360,000 out of a total for the county of \$9,800,000, will be called upon to pay a less tax rate than last year, the rate on the road district having been reduced seven cents, or from 65 to 58 cents on the \$100. As the general fund rate is to be reduced two cents to take care of the court house repairs, this seven cents remains a net decrease. In other parts of the county the rate, as far as these funds are concerned, will total the same as last year.

The board has not yet fixed all the rates, but has set the county poll tax at 25 cents and the occupation tax at half the state rates.

The county has just recently constructed a splendid bridge across Sandy creek on the McCree bridge road at a cost of \$1,576.84, and a smaller bridge on the same road at \$451.11. The work was done by Henry Crenshaw, whose final estimate was ordered paid.

G. W. Ormes of the A. and M. college extension service, appeared before the board, described the agricultural conditions and the need for raising food and feed particularly on account of the war, reciting the work the extension service is doing to meet the requirements of the president. In conclusion he asked the board to increase the salary of the county agent. It was agreed that the county should pay him \$800 a year, and the government supplements this. Mr. Beason, the county agent, has done faithful work and whatever may have been his failure has not been due to any lack of energy or enthusiasm on his part, nor to lack of labor, as he has kept himself going, bought himself an automobile and has reached every part of the county in his efforts to improve the agricultural conditions. If he has not had the response it is thought should have been obtained, he is not the one who says so, for he feels that a lot of good seed has been sown and that the work is beginning to bear fruit that will terminate in a rich harvest later.

The court ordered that it would allow the pension provided in chapter 120, acts of the Thirty-fifth legislature. This law requires that the commissioners court approve the claims and pay same out of county taxes, and to meet the prospective requirement will take an additional tax of 5 cents and may be more, which it does not feel like allowing.

SURGEONS agree that in cases of Cuts, Burns, Bruises and Wounds, the FIRST TREATMENT is most important. When an EFFICIENT antiseptic is applied promptly, there is no danger of infection and the wound begins to heal at once. For use on man or beast, BOROZONE is the IDEAL ANTISEPTIC and HEALING AGENT. Buy it now and be ready for an emergency. Price 25c, 50c, \$1.00 and \$1.50. Sold by E. J. Jenkins.

Buy your feed from G. D. Tucker. He sells cheap for cash.

## REQUESTS UNITED STATES MARSHAL BE ORDERED TO BRYAN

From Tuesday's Daily Eagle  
Dr. James Byars of the Brazos county exemption board has wired United States District Judge Byrnes to send to Bryan a United States marshal. When asked concerning the matter, Dr. Byars said:

"I sent to Judge Byrnes for a marshal because of attempted interference with the board and an effort to tell me what my duties are."

Asked if he would recount the circumstances, Dr. Byars replied:

"No. I shall tell that to the United States marshal when he arrives."

E. T. Herring, deputy United States marshal, and Special Agent Rogers of the department of justice, have left Houston and are due here this afternoon.

### Harvey

Harvey, Texas, Aug. 9.—Last Friday afternoon a crowd of young people gathered at the home of Mrs. J. C. Davidson and participated in a "Jenkins" party given in honor of Miss Lucy Gene Carney of Lane City. The games were enjoyed on the porch, which was decorated with wild grapes and moss. After several hours of enjoyment the guests were served with punch and cake.

Mr. and Mrs. Devalant Buchanan and their son, Clifton, have returned to their home in Wharton after a week's visit to their parents here.

Miss Lucy Gene Carney and Mr. Raymond Davidson returned to their homes in Wharton and Lane City after a pleasant visit in the home of their uncle, Dr. J. C. Davidson.

Among the visitors in Harvey last week were Mr. and Mrs. N. A. Cotton.

About sixty young people attended the second meeting of the Christian Endeavor society at Bright Light last Sunday night. We are very much encouraged by this beginning.

Miss Thelma Welch was the guest of Miss Mamie Cargill last week.

George Davidson has gone to San Antonio in search of a job at helping build soldiers' quarters.

We had a good rain Friday which was badly needed.

### FEEL WORSE AFTER VACATION

The change from outdoor activity of vacation time to the quiet of regular employment sometimes makes one feel heavy and "stuffed up," uncomfortable and bilious, with a mean headache and coated tongue. Foley Cathartic Tablets give prompt relief from these results of indigestion. Mild and gentle, but sure. M. H. James.

### COTTON BRINGS BIG SUM.

New York, Aug. 14.—The first three bales of Georgia's new cotton crop to arrive in this city were auctioned from the steps of the cotton exchange today for \$700, nearly 50 cents a pound. The money was given to the Red Cross fund.

If you sit in a cool draft when you are heated and get a stiff neck or lame back, you will be looking for something that will ease the pain. Fix your mind on BALLARD'S SNOW LINIMENT and don't be talked out of it because it is the best pain relieving liniment you can get anywhere. Price 25c, 50c and \$1.00 per bottle. Sold by E. J. Jenkins.

HAS RECOVERED HER HEALTH.  
So many women suffer from similar afflictions that this testimonial from Mrs. Laura Beall, Plattsburg, Miss., will be read with interest: "I got in bad health. My left side hurt all the time. I took doctor's medicine, but it did me no good. I took two bottles of Foley Kidney Pills and feel all right now." M. H. James.

GALVESTON, THE IDEAL PLEASURE CITY, FANNED BY COOL SEA BREEZES. Best Surf Bathing, unexcelled fishing, sight seeing yachts. Low Rate Excursion tickets on sale by I. & G. N. Ry. for trains arriving Galveston Saturday P. M., August 18, and Sunday A. M., 4:41st Monday. For particulars, see I. & G. N. Ticket Agent.

### STRIKERS REFUSE.

Kansas City, Mo., Aug. 13.—Street car strikers have refused the settlement proposal.

## BRAZOS COUNTY QUOTA OF SOLDIERS ARE NOW MADE UP

From Tuesday's Daily Eagle  
Brazos county has answered the first call of the United States for soldiers by offering 258 men. The call was for 217 men, to secure whom 434 were called for examination. Of these 26 had already enlisted, although they were not all included in the first call.

Twenty-nine were discharged after physical examination. No exemption claims were made by 147 who passed the physical examination, and 85 who filed claims for exemption were denied their pleas and accepted for service.

Those whose claims for exemptions were denied have the privilege of appeal, but as the matter now stands the exemption board has tendered more than the quota asked for by the government, notwithstanding strong pressure was brought to bear in some individual instances to secure release.

The clerks are now preparing the lists of those accepted for service. Those who wish to appeal have to go through certain forms, and will take their cases before the district board which sits at Houston. Most of those whose exemption claims have been denied will, however, accept the decision of the board and appear for service when called.

### NOT EXEMPTED OR DISCHARGED

Following is a list of persons from Brazos county called into service of the United States not exempted or discharged:

Serial No., name and address	Order No.
155—Henry Plagens, Bryan	9

1103—Joseph P. Luza, Bryan	100
606—Ray M. Green, College	102
513—Luke Franklin, Dinkins	103
1651—Joe Spell, Bryan	108
1626—James Sterling, Zack	111
2066—Ross Zinanti, Steele's	113

## CALOMEL DYNAMITES A SLUGGISH LIVER

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50-cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Adv.

## ADVISED SALOONISTS TO CLOSE BUSINESS

(By Associated Press)  
Kansas City, Mo., Aug. 13.—United States deputy marshals today were "advising" upwards of three hundred saloon keepers principally in the heart of the business district, to close their saloons in line with President Wilson's proclamation ordering closed those saloons within a half mile of military camps where soldiers are quartered.

Many saloons closed after receiving the warning and the indications are that the up-town district soon may be dry for the first time in its history.

117—George Bullock, Cawthon	115
602—Joshua Green, Bryan	116
772—Thomas Haynes, Wellborn	120
1419—Anson Parsons, Wellborn	123
